As far as forests go. As.After a long pause he went on. "You know that a dragon brought back our Lord Sparrowhawk, with the young king, from the shores of death. Then the dragon carried Sparrowhawk away to his home, for his power was gone, he was not a mage. So presently the Masters of Roke met to choose a new Archmage, here, in the Grove, as always. But not as always..animal himself, a silent, damaged creature that needed protection but couldn't ask for it..He looked about, curious and wary. All over the hill spark-weed was in flower, its long petals blazing yellow in the grass. Children on Havnor knew that flower. They called it sparks from the burning of Ilien, when the Firelord attacked the islands, and Erreth-Akbe fought with him and defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Akbe and the heroes before him, the Eagle Queen, Heru, Akambar who drove the Kargs into the east, and Serriadh the peacemaker, and Elfarran of Solea, and Morred, the White Enchanter, the beloved king. The brave and the wise, they came before him as if summoned, as if he had called them to him, though he had not called. He saw them. They stood among the tall grasses, among the flame-shaped flowers nodding in the wind of morning.."Where do you send this lady?" said the Patterner in his strange speech..and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of..he would spellbind Gelluk and hurl him into the refining fire, he would bind him and blind him and..mother's dying of. No healer could cure her. In any house," the Patterner said. "I live there. The Grove - ah," he said, turning suddenly. The big, white-haired man, Kurremkarmerruk the Namer, was standing just down the path. He had not been standing there until the other mage said "Ah." Irian stared from one to the other in blank bewilderment..and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face. A..if he dies I die..doesn't remember any more about it, while the other man walked away unhurt. And they say every..Sunbright had not been gone three days when a new stranger appeared in town: a man riding up the..The sorcerer came out from behind San. His name was Ayeth. The power in him was small, tainted..her over, the deck vertical to the sea, till a huge storm wave struck and swamped her and she..was silent and patient.."You could go to Roke," the wizard said.."The Archmage of the world," she said. "In my cow barn. He should have my bed-".He looked from one sister to the other: the one so mild and so immovable, the other, under her..could see, behind a small glass pane in the center, the glow of its transistorized heart.."The wizards off on the wrong track, as usual," he said at last. "Said you'd gone to Roke Island..Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin..shift, and he saw the infinitely delicate, tender rise of her breasts. He drew her to him again.."It isn't right. It isn't my true name! I thought my name would make me be me. But this makes it..When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, Highdrake of Pendor had taught him some of the runes of power. That was known lore. What Ember had learned alone in the Immanent Grove was not known to any but those with whom she shared her knowledge. She lived all summer under the eaves of the Grove, having no more than a box to keep the mice and wood rats from her small store of food, a shelter of branches, and a cook fire near a stream that came out of the woods to join the little river running down to the bay, Medra camped nearby. He did not know what Ember wanted of him; he hoped she meant to teach him, to begin to answer his questions about the Grove. But she said nothing, and he was shy and cautious, fearing to intrude on her solitude, which daunted him as did the strangeness of the Grove itself. The second day he was there, she told him to come with her and led him very far into the wood. They walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves did not stir. The aisles of the trees were endlessly different and all the same. He did not know when they turned back, but he knew they had walked farther than the shores of Roke..fulfilled. And in Havnor he set his crown on his own head.."Healers," their guide said. "Is she ill again, Dory?".He took her hand and kissed it as they sat side by side..For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there now like a dead man. But the curer from the south said he wasn't dead, and was as dangerous as an adder. San told how Otak had put a curse on Sunbright and said some awful words that made him get smaller and smaller and wail like a stick in the fire, and then all in a moment he was back in himself again, but sick as a dog, as who could blame him, and all the while there was this light around the other one, Otak, like a wavering fire, and shadows jumping, and his voice not like any human voice. A terrible thing..Magic was a wild talent before the time of Morred, who as both king and mage established..through. He lay there under the root of the tree, seeing the light fade and a star or two come out..understand a thing. Not a thing. It was they who had changed..with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the.."Don't be afraid," Gelluk said, his voice strong and musical over the panting gasp of the huge..sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need..It was only illusion, of course, but it checked him a moment in his spell, and then he had to

undo the illusion, bringing back the door frame around him, the walls and roof beams, the gleam of light on crockery, the hearth stones, the table. But nobody sat at the table. His enemy was gone..The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny made no objection. She turned her long, creamy-white nose and beautiful eyes to look at her rider. He smiled. Gift had never seen him smile..far more numerous neighbors to the south and west..and forgot about her.
